AUTO BODY SHOP

WOODWORKERS

MARINE TRADES

FINISHING / PAINT

**If you work in any of these trades, then the
“PREPPIN WEAPON” is for you!**

Originally designed specifically for the auto body trades, the “PREPPIN WEAPON” is an extremely well thought out premium sanding block. Moulded to fit comfortably in the palm of your hand, the “PREPPIN WEAPON” can be used for extended periods of time with reduced operator fatigue. The unique clamping mechanism enables you to utilize a 9”x 11” sheet of paper by loading all 4 pieces on at the same time, allowing you to “tear & go”. The high impact ABS plastic, styrofoam core, and stainless steel mechanisms, made this an ideal wet & dry sander. You can even save the hassle of wondering which grit you have loaded by colour coding by grit size! For anyone who demands the best when it comes to the tools he/she uses, the “PREPPIN WEAPON” will keep you coming back for more!
